ABOUT DIMENSION

01

Since its founding in 2018, Dimension Investments has constantly delivered high-quality services, always putting clients first by being their most reliable and insightful financial services partner in Armenia. Dimension provides a wide range of solutions and comprehensive support across Investment Banking, Global Markets, Asset Management and Securities Custody.

Dimension's capabilities are fortified by its independence and high integrity, multi-perspective and client-centric culture, professional team, diverse & highly engaged shareholders and global network of clients & counterparties. The principle of the company is to provide high quality of services and to show an individual approach to each partner and customer.

“There are always new dots to connect and new perspectives to offer. While being well-versed in traditional financial solutions, we never stop looking for the better, faster and the more effective.”

Carel Hofstra
Shareholder and member of the Board of Directors

MISSION

Our mission is to put clients first by being their most reliable, insightful and effective investment services partner in Armenia, while maintaining the firm's high integrity.

VISION

Our vision is to be the most impactful and successful investment firm in Armenia, always breaking new grounds and providing world-class services offered to the best clients in the market.

OUR SHAREHOLDERS

At Dimension Investments, we have a collaborative team with members from diverse nationalities, backgrounds, and areas of expertise.

Our shareholders come from Armenia, Europe, and the United States. This diversity enriches our perspective, fosters innovation, strengthens our global reach and maintains high standards of corporate management.

We consider a broad spectrum of viewpoints when making strategic decisions. This results in well-rounded, comprehensive approaches to investment opportunities.

This presentation is provided for informational purposes only and does not constitute a prospectus of securities as defined by the EU Prospectus Regulation (Regulation (EU) No 2017/1129) or THE REPUBLIC OF ARMENIA LAW ON SECURITIES MARKET.

In this presentation, the term "financial instrument" encompasses securities, derivatives, fund shares, and other related instruments. Any decision to invest in financial instruments should be based on the information contained in a base prospectus, private placement memorandum, final terms, key information document, fund rules, or other applicable documents specific to the offering.

This presentation does not establish a fiduciary relationship or provide financial or investment advice. It is not an offer, solicitation, invitation, or inducement to engage in investment activities, purchase or sell services or financial instruments, or enter into any transactions. It should not be construed as an advertisement for financial instruments.

Opinions expressed in this presentation may differ from those expressed in other areas or groups within Dimension CJSC due to differing assumptions and criteria. All information and opinions are subject to change without prior notice, and there is no obligation on the part of Dimension CJSC or its subsidiaries or affiliates to update or maintain the information contained herein.

Investors are expected to possess the required level of knowledge and experience to comprehend and evaluate the risks associated with financial instruments. This should meet the criteria of a professional client under MiFID II, THE REPUBLIC OF ARMENIA LAW ON SECURITIES MARKET, or equivalent standards in other jurisdictions. Additionally, investors should have the financial capacity and liquidity to withstand potential losses and tolerate infrequent or delayed recovery of investments.

Investments in illiquid financial instruments come with a high level of risk and are suitable primarily for sophisticated investors who can withstand such risks. Foreign-currency-denominated financial instruments and securities are subject to exchange rate fluctuations, which can impact their value and income. Other risk factors include political, economic, credit, and market risks.

Past or historic performance data relating to financial instruments or underlying securities should not be considered a guarantee of future performance. The value of investments can fluctuate, and past performance is not indicative of future results.

Descriptions of companies, securities, or markets are not exhaustive. This presentation does not replace the need for individual judgment, considering specific investment objectives, financial situations, or unique needs. Taxation implications are subject to individual circumstances, and investors should seek independent professional advice before making investment decisions.

The financial instruments described in this presentation may not be available for sale in all jurisdictions or to certain categories of investors. The value of investments can rise and fall, and not all investments may be readily convertible into cash due to market illiquidity.

This presentation is not intended for public distribution and may not be reproduced, redistributed, or published in whole or in part without written permission from Dimension CJSC. Neither Dimension CJSC nor its affiliates accept liability for the actions of third parties in this regard. The information herein should not be used to create financial instruments, products, or indices.

Neither Dimension CJSC nor its affiliates, including their directors, representatives, or employees, accept liability for direct or consequential losses or damages resulting from the use of this information.
